narrative and numbers: the value of stories in business

Narrative and Numbers – Aswath Damodaran on intrinsic value. In his book, *Narratives and Numbers: The Value of Stories in Business*, NYU finance professor Aswath Damodaran suggests that plausible valuation of companies and investments requires meaningful financial models and compelling narratives. We review some of Damodaran's views on the relationship between narratives, numbers and the intrinsic value of a company in this post.

Narrative and Numbers - Aswath Damodaran on intrinsic value

Professor Damodaran basically holds that narrative and numbers are linked: The founder needs a story to justify his valuation, and the publicist needs numbers to validate her pitch. Quants will enjoy Damodaran's portfolio manager approach, judging from the sharp-pencil references to Tufte and Bayes in the margins of my borrowed copy.

Narrative and Numbers: The Value of Stories in Business by ...

Aswath Damodaran, finance professor and experienced investor, argues that the power of story drives corporate value, adding substance to numbers and persuading even cautious investors to take risks. In business, there are the storytellers who spin compelling narratives and the number-crunchers who construct meaningful models and accounts.

Narrative and Numbers: The Value of Stories in Business by ...

Both are essential to success, but only by combining the two, Damodaran argues, can a business deliver and sustain value. Through a range of case studies, *Narrative and Numbers* describes how storytellers can better incorporate and narrate numbers and how number-crunchers can calculate more imaginative models that withstand scrutiny. Damodaran considers Uber's debut and how narrative is key to understanding different valuations.

Narrative and Numbers | Columbia University Press
