Step 2: Determined how much capital you plan to invest in options trade. Brokers will help you assist your investment potential and your trading experience. Step 3: You need to Open an account.

~~How to increase your portfolio in options trading -~~

An options contract allows you to control 100 shares of stock. If you were going to buy 100 shares of stock at \$40, you would invest \$4,000. Options traders who don't quite understand the power of options think that instead of buying 100 shares of stock for \$4,000, they should buy \$4,000 worth of calls (calls are a bet on the stock price going higher).
