arranged to honor  
Josef Loschmidt one  
hundred years after  
his death (8 July  
1895), to evaluate the  
significance of his  
contributions to  
chemistry and physics  
from a modern point  
of view and to trace  
the development of  
scientific fields in  
which he had done  
pioneering work.

Loschmidt is widely known for the first calculation of the size of molecules (1865/66), which also led to values for the number of molecules in unit gas volume and for the mass of molecules.
