First, a neoliberal political innovation consists in setting up "the economic rule of the law" (163). Hayek's writings serve as solid evidence for this claim. Second, Foucault argues that neoliberalism is the general framework of biopolitics. And, we certainly know since (at least) Discipline and Punish that power individuates. Vatter successfully shows how ultimately the "neoliberal economic rule of law introduces a new form of individuation that requires that everyone become an ...

It has been argued that the philosopher's interest in literature was limited to the 1960s and of a mostly depoliticized nature. However, Foucault's previously unpublished later works suggest a different reality, showing a sustained interest in literature and its politics. In the light of this new material, the book repositions Foucault's ideas within recent debates on the politics of literature.

It was developed in three distinct stages, beginning with a focus on difference in the 1960s, passing through an emphasis on revolutionary agitation in the years 1970s, and finally developing into a broader notion of diffuse, localized resistance to power in his later work. Contrary to the claims of those who assert that Foucault's notion of a ubiquitous and insidious power paralyzes, his notion of resistance supports a wide range of political action.
